**B.Com. (Sem. V ) Examination**

Paper –VI MIP-08 RDBMS -I

*March-15*

**Time: 2 hours 30 Minutes]**

**[Total Marks: 70**

---

<b>Q-1</b>	1. What is RDBMS? Why RDBMS more use compare to DBMS?	<b>07</b>
	2. Explain Normalization	<b>07</b>
<b>OR</b>		
<b>Q-1</b>	1. What is the difference between DBMS and RDBMS	<b>07</b>
	2. Explain Data types available in Oracle	<b>07</b>
<b>Q-2</b>	1. Explain DDL Commands with example	<b>14</b>
<b>OR</b>		
<b>Q-2</b>	1. Explain DML Command in detail.	<b>10</b>
	2. What is the select command how it use in oracle?	<b>04</b>
<b>Q-3</b>	1. Why we use constrains in oracle? List out types of constrains available in oracle.	<b>07</b>
	2. Why we use Foreign Key with Primary Key? Explain with example	<b>07</b>
<b>OR</b>		
<b>Q-3</b>	1. Explain Business rules constraintwith example	<b>10</b>
	2. Explain Unique Constraint.	<b>04</b>
<b>Q-4</b>	1. Why we use function in oracle? Write six numeric functions with syntax and example.	<b>14</b>
<b>OR</b>		
<b>Q-4</b>	1. Explain Any four String Function with syntax and example	<b>08</b>
	2. Explain operator available in oracle	<b>06</b>
<b>Q-5</b>	1. What do you mean by joins? Explain types of joins available in oracle	<b>10</b>
	2. Explain <i>group by</i> clause.	<b>04</b>
<b>OR</b>		
<b>Q-5</b>	1. Explain sub queries in oracle	<b>07</b>
	2. Why we use having clause after group by clause in queries? Explain having clause with example.	<b>07</b>
