Paper No -15. Paper Name : Advanced Object Oriented Techniques and JAVA
Programming
Paper Code : 4500

Time : 2:30 Hours   Marks : 70

Q – 1   Answer the following
(A) Explain Looping with example   07
(B) Write a short note on primitive data types and reference data type.   07
                                     OR
Q – 1   Answer the following
(A) Explain 1'D array with example.   07
(B) Explain select case with example.   07

Q – 2   Answer the following
(A) Write a note on Class and Object.   07
(B) Explain any two types of constructor with example.   07
                                     OR
Q – 2   Answer the following
(A) Explain method over loading with example.   07
(B) What is inheritance? Explain Inheritance with example.   07

Q – 3   Answer the following
(A) Explain Thread Lifecycle.   07
(B) Explain to create thread using Runnable interface with example   07
                                     OR
Q – 3   Answer the following
(A) Explain Synchronization with example.   07
(B) Describe different ways to implement Thread.   07

Q – 4   Answer the following
(A) Explain any three string methods with example.   06
(B) Explain fileInputStream and fileOutputStream class with example.   08
                                     OR
Q – 4   Answer the following
(A) Explain fileReader and fileWriter class with example.   07
(B) Explain File class with example.   07

Q – 5   Answer the following
(A) Explain parameters of Applets with example   07
(B) Explain Applet life cycle.   07
                                     OR
Q – 5   Answer the following
(A) Explain any two events of applet with example.   07
(B) Write a program to print **"Hello How are You?"** using applet.   07
